FOR IMMEDIATE RELEASE:

Irvine Sensors Announces Relocation to Accommodate Operational Needs

An innovator in highly relevant, valuable and proven technologies: LIDAR, and AI-enhanced video analytics (ALERT), and 3D Electronics & Mass Storage, Irvine Sensors announces relocation to accommodate the company's increasing operational needs.

Costa Mesa, CA—July 3, 2019— Irvine Sensors, an innovator in the development of sophisticated video, analytics, and AI technologies, announced the recent relocation of its headquarters to a new, state-of-the-art facility located at 3000 Airway Avenue, Costa Mesa, CA 92626-6033. The move will accommodate the company's continued growth.

"The AI and video analytics industries continues to grow and evolve. Our move will help accommodate broadening industry needs and is in keeping with our mission to serve our customers with increasingly sophisticated technologies that enhance awareness, surveillance, and data," shared John Carson, President and CEO, Irvine Sensors.

The new, modernized facilities provide greater support to research, development and expansion for staffing.

“Irvine Sensors is a rapidly progressing company which has produced many game-changing innovations” states Daniel DeBlasio, Director, ALERT® Business Development at Irvine Sensors. Continues DeBlasio, “The move to the new facility reflects the continued commitment of our organization to provide our clients with the infrastructure to carry on in this tradition of innovation.”

About Irvine Sensors

Founded in 2013, and located in Costa Mesa, California, Irvine Sensors Corporation (ISC) was launched to commercialize over \$400 million of government and private investment that resulted in a host of highly relevant, valuable and proven technologies including, LIDAR, AI-enhanced video analytics (ALERT), 3D Electronics & Mass Storage and Hyper-Aware Logic (HAL).
